“The *‘image to the beast’* represents that form of apostate Protestantism which will be developed when the Protestant churches shall seek the aid of the civil power for the enforcement of their dogmas.”

– ***The Great Controversy, 1911 Edition, p. 445***

“How the Roman church can clear herself from the charge of idolatry we cannot see. ... And this is the religion which Protestants are beginning to look upon with so much favor, and which will eventually be united with Protestantism. This union will not, however, be affected by a change in Catholicism; **for Rome never changes**. *She claims infallibility. It is Protestantism that will change.* The adoption of liberal ideas on its part will bring it where it can clasp the hand of Catholicism.”

– ***Review and Herald. June 1. 1886***
